The company has capacities for processing raspberries to the amount of 1,600 tons, and process 3.500 tones per year.

The buildings are developed according to the most demanding EU standards in order to obtain all the necessary certificates for the export of soft fruit.

It is a complex of 2,000 m2 and it consists of:

- anteroom for refrigerating and preparation of deep freezing fruit
- 2 deep freezing tunnels with a capacity of 50 tons / 24h
- 1 refrigerator capacity of 70 tons
- 3 chambers for storage of goods with total capacity of 1,600 tons
- adequate facilities for cooling and deep freezing have been installed in the facility
